

OTTER YOUTH CIRCLE

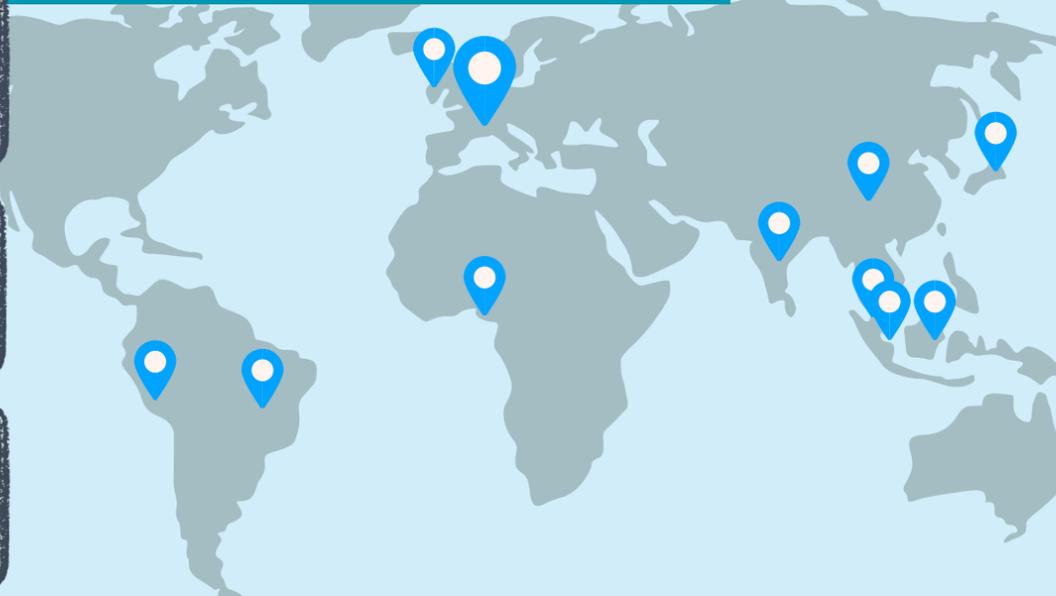

Youth is the future of otter conservation, but how many young folks do we actually have in the OSG? Do they feel represented? Do they need support? In order to find out, we conducted a short survey. Here's what they said:

ABOUT OUR RESPONDENTS

OUR YOUNGEST RESPONDENT IS 28 YEARS OLD

100% HAVE A SCIENTIFIC BACKGROUND

**FEMALE: 43.75%
MALE: 50%
NON BINARY: 6.25%**

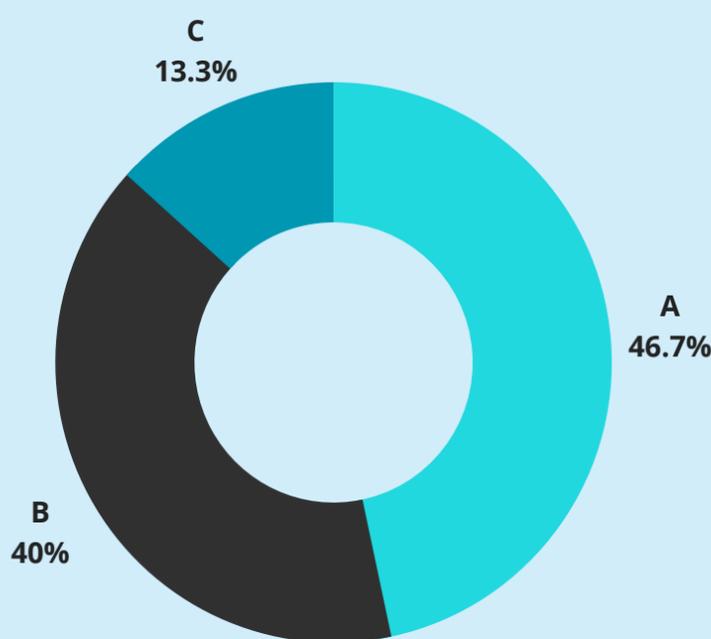

only 68.75%

attended OSG related workshops, meetings or conferences, mainly because of funding issues

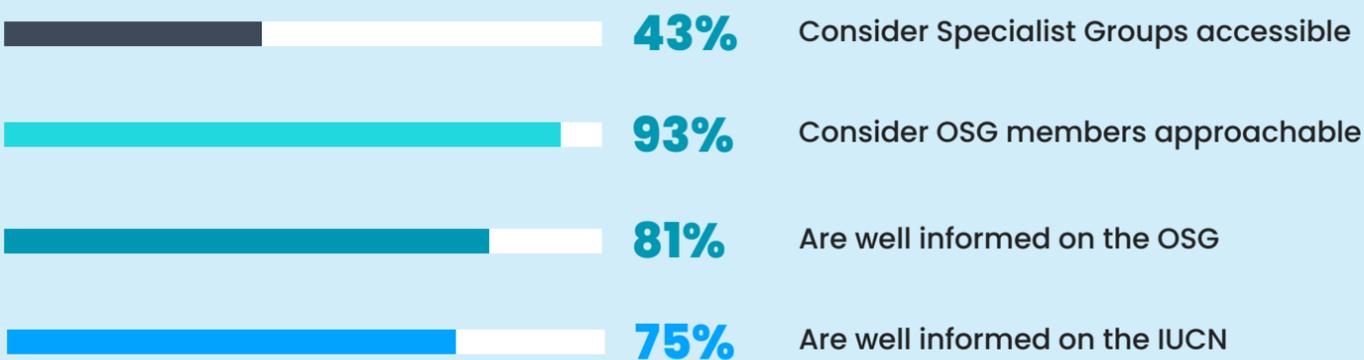

only 18.75%

feel that youth is well represented in specialist groups

HOW THEY JOINED THE OSG

A: "Someone recommended to join"
B: "Attended a conference and then joined"
C: "I approached a member and then joined"

Activities that would be of interest to respondents are:

TRAINING

EVENTS

TALKS

87%

of respondents think that the Otter Youth Circle can help with youth representation and to stimulate youth to participate more.
